

Children's Program

The 14th Gathering will offer tours, craft and active experiences for children who attend with parents or grandparents.

Based on the successful programs offered by the Keweenaw County Historical Society and developed by chairperson Mary Lou Lenz, the children's programs will include field trips and hands-on experiences.

Children will be encouraged to participate in the Flora Day Dance on Wednesday.

On Thursday, children will tour the Houghton County Historical Museum, visit the schoolhouse, the miniature train exhibit and ride the train while talking about mining and the life in the region. They will do a craft project and have a picnic lunch on the grounds.

Friday, the children will go by bus to Central Mine. Included in their day will be a tour of Central, offering the kids an opportunity to be guides for their parents or grandparents. Some of their time may be spent picking wildflowers, picking berries and hauling water from the pump at House Number 9. Either in the morning or afternoon, they will tour the Delaware Mine.

Saturday, the Calithumpian will offer lots of things for children to enjoy.
